

CNELM Personalised Nutrition Practice Diploma

The Personalised Nutrition Practice Diploma (PNPD) is a CNELM qualification. It is not a standalone Diploma, but is designed to be taken in combination with the BSc (Hons) Nutritional Science or the MSc or PG Diploma in Personalised Nutrition as an accredited route to practice as a nutritional therapist. *

Course Overview

The PNPD in combination with the BSc Hons Nutritional Science or the MSc/PG Dip in Personalised Nutrition meets the Core Curriculum and the National Occupational Standards for nutritional therapy enabling graduates of the combined courses to apply to register with Professional Body the British Association for Nutrition & Lifestyle Medicine (BANT) and the Regulatory Body the Complementary and Natural Healthcare Council (CHNC) - subject to meeting their requirements. The combined degree + PNPD route should increase your career options, as you will have gained the necessary skills to practice as a nutritional therapist and be eligible to apply for a variety of roles within the nutrition industry. You can integrate the PNPD with one of the degree programmes or take the PNPD after completing a degree programme. The PNPD is a blended learning programme inclusive of 'Attendance' and 'Distance Learning' components. The PNPD is available to study full-time (9-12 months) or part-time (1-3 years)

Course Length & Study Options

Two modes of study can be applied for:

- **Integrated (INT):** modules are taken at the same time allowing you to combine theory with practice. Internal awards can be gained (eg. Dietary Educator Certificate) enabling you to commence work as you complete the courses, with potential income from your work.
- **Separated (SEP):** modules are taken upon completion of BSc/MSc/PG Dip enabling you to focus solely on your degree studies and then consider afterwards whether you wish to practice as a nutritional therapist.

Course Outline

Modules 1 & 2

Personalised Dietary Education

- 1) Coaching in Personalised Nutrition Practice (CP)*
- 2) Personalised Dietary Education (PDE)**

*5-day mandatory online attendance - 35 hours. Onsite attendance opportunities may resume from Sept 2022.

** This module is studied within the BSc programme as part of Level 4 Dietary Education

Modules 3, 4 & 5

Personalised Nutritional Therapy Practice

- 3) Clinical and Coaching Skills Development (SD)
- 4) Supervised Personalised Nutrition Consultations & Practice (SP)
- 5) Nutrition Enterprise (NE)**

* 2x5 day online attendance - 70 hours The first 5-days is mandatory online attendance.

** This module is studied within the BSc programme as part of Level 6 Nutrition Enterprise

Entry Requirements

Students must be enrolled on one of the following courses:

- 'BSc (Hons) Nutritional Science'
- 'MSc in Personalised Nutrition' or 'PG Dip (Postgraduate Diploma) in Personalised Nutrition'
- IELTS 7.0 or TOEFL equivalent if English is not your first language

* Renewal of accreditation takes place every 2-3 years by the Nutritional Therapy Education Commission (NTEC). Accreditation applies to practice within the UK only. Entry to the CNHC register is the prerogative of the CNHC and not CNELM. False and/or fraudulent applications could lead to exclusion from the register.

Why CNELM?

CNELM is committed to offering courses that have External accreditation, endorsement or validation. The degree courses we teach are validated by Middlesex University and the PNPd is Endorsed by Qualifi. Our short course leading to the NLP Practitioner Certificate and Dietary Educator Certificate are approved by UKCPD and the Federation of Holistic Therapy respectively. We are committed to evidence based research and keeping abreast of new developments in personalised nutrition education and emerging healthcare paradigms. Our nutrition and clinical programmes encompass Systems Biology, principles of Functional Medicine and psycho-neuroimmunology. We listen to our staff and students and continually review and adapt our programmes, learning resources and e-learning to help improve the student experience.
